

# SO MANY REASONS TO BE PROUD OF OUR INDUSTRY!

## Why shop local?

Because local companies engage with and help their communities!

# Adapt and give back in a different way

Due to Covid-19, Urbana Kitchens is missing the opportunity for the second year in a row to host their annual gathering with customers for a lovely evening of great food and drinks in their showroom.

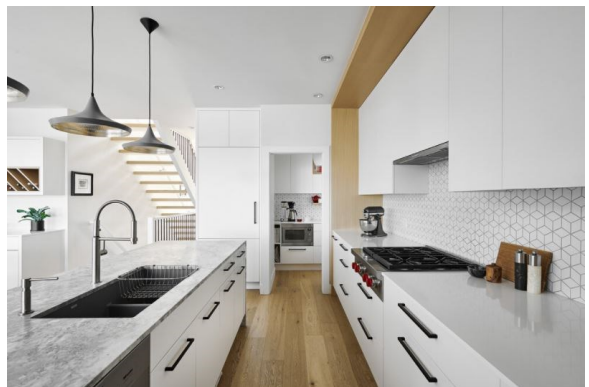

So instead, they sent out a notice to their clients that while they are sorry to have to cancel, they have chosen to do something else that they feel will still benefit people.

Urbana donates the equivalent amount that would have been spent on their event to the Salvation Army Victoria Addiction Recovery Centre.

Because they believe the Salvation Army has been instrumental in assisting individuals and families to get the help they need and to give them the financial aid they lack to get ahead.

*"Our goal is not to brag about our generosity, but moreso to encourage others to do the same..."*
