

## Get to know the CKCA Board of Directors

**Chris Havey**

**CKCA Board Member**

**Director of Product Development**

**CNC Automation**

[ckca.ca/about/board-of-directors](http://ckca.ca/about/board-of-directors)

### **You have now served 2 years on the board. Why did you engage by serving on the CKCA Board and what compelled you to stay?**

I joined the CKCA Board to help strengthen the Canadian marketplace and share my knowledge gained over the last 20 years from the manufacturing side as I have transitioned into the supply side.

#### **Biggest advantage to being a CKCA member?**

Membership in the CKCA for me has given me access to free consultants when I was in a manufacturing role, as it is a safe environment where information is shared freely and without hesitation!

### **What would you say to others in the industry who might consider a position on the Board in the future?**

DO IT! Let your voice be heard. Non-profit organizations need a board to give them stewardship and oversight. Without consistent interest and engagement from the membership, boards will not survive.

### **What have you enjoyed most about being on the Board?**

Getting to know board members better and further interaction with the great members of our association!

### **Thoughts for the future of the organization?**

I have seen the engagement in the CKCA flourish in the last several years and hope to see that continue. Welcome to all new members and I hope you see the value and strength of your membership!
